

Consent form

UCL Research Ethics Committee Approval ID Number: 5975/003

YOU WILL BE GIVEN A COPY OF THIS CONSENT FORM

Project title: The human interaction study: Inclusive Street Lighting
Department: UCL Institute of Cognitive Neuroscience
Lead Researcher: Dr Navaz Davoodian
Principle Investigator: Prof Antonia Hamilton

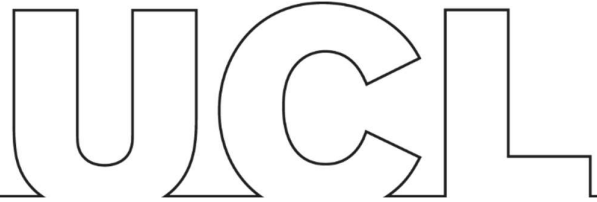

Thank you for considering taking part in this research. If you have any questions arising from the Information Sheet or explanation already given to you, please ask the lead researcher before you decide whether to join in (please see the contact information above). You will be given a copy of this Consent Form to keep and refer to at any time.

I confirm that I understand that by ticking each box below I am consenting to the corresponding element of the study.

Some boxes are grey and are labelled OPTIONAL. I understand that I do not have to consent to these elements, and I can still take part in the rest of the study.

Other boxes are white and are necessary. I understand that if I do not give consent for these elements, then I may be deemed ineligible for the study.

Research visit items	Tick
I have read and understood the Information Sheet for the above study. I have had an opportunity to consider the information and what will be expected of me. I have also had the opportunity to ask questions which, if any, have been answered to my satisfaction.	
I understand the inclusion criteria and exclusion criteria detailed in the information sheet. I do not fall under the exclusion criteria.	
I agree to wear the NIRS cap for this study and I know I can withdraw this later.	
I agree to wear the eyetracker for this study and I know I can withdraw this later.	
I agree that the study is recorded with video and audio equipment	
I understand the potential risks of participating. No promise or guarantee of benefits have been made to encourage me to participate.	
I understand that my participation is voluntary and that I am free to withdraw at any time without giving a reason. I understand that if I decide to withdraw, any personal data I have provided up to that point will be deleted unless it has been fully anonymised or I agree otherwise.	
I understand that I will be compensated for my time spent in this study, even if I choose to withdraw.	
I am aware of who I should contact if I wish to lodge a complaint.	

Data storage items	
I understand that I will be able to withdraw all my data up to 2 months after it has been collected.	
I consent to being audio/video recorded and understand that the recordings will be stored anonymously, using password-protected software and will be used for specific research purposes.	
I consent to short video clips from my visit being shown to other research participants in studies managed by the Social Neuroscience group. My face/voice will be visible, but my name will not be used. (Optional).	
I consent to short video clips from my visit being shared in teaching and research presentations. My face/voice will be visible, but my name will not be used. (Optional)	
I understand that my personal information including my name, contact details and signature, will be stored for auditing purposes. I understand that the core scientific data collected in this study will be stored pseudonymously on a secure server and used for scientific research. I understand that the video/audio data collected in this study will be stored separately on a secure server and processed to produce pseudonymous data. I understand that according to data protection legislation, ' <i>public task</i> ' and ' <i>scientific & historical research</i> ' will be the lawful basis for processing.	
I understand that the core scientific data collected in this project will be analysed by researchers linked to the Social Neuroscience Group and published in appropriate scientific papers. It will not be possible to identify me in any publications.	
I understand that my information may be subject to review by responsible individuals from the University College London for monitoring and audit purposes.	
I agree that my fully anonymised research data may be permanently archived and may be used by others for future research. No one will be able to identify me when this data is shared.	
Overall consent	
I voluntarily agree to take part in this study.
